

Off-roading in National Parks

If you took an interest in the BBC4 programme about off-roading in the Peak District, you will be aware that the campaigners had some success in persuading the local Council to take action.

There is now an e-petition to the Government, initiated by the campaigners, to stop all off-roading by motor vehicles in National Parks. If 100,000 people support the e-petition, the Government has undertaken to respond.

The petition can be found at: <http://epetitions.direct.gov.uk/petitions/9910>

Ramblers and CPRE are encouraging their members to sign. Please consider doing so, as it is a major issue for our Park.

Future of Welsh National Parks

CNP, the umbrella body for National Parks in England & Wales, had a letter in the Western Mail on 5 December. This can be accessed via:
